ADJOURNMENT

AP 4227 Repeatable Courses

Reference:

Title 5 Sections 55041, 55042, 55253

Only the following types of courses may be designated as repeatable:

1. Courses for which repetition is necessary to meet the major requirements of California State University (CSU) or University of California (UC) for completion of a bachelor's degree;
2. Intercollegiate athletics courses; and
3. Intercollegiate academic or vocational competition courses. Such courses may be repeated no more than four times for semester courses or six times for quarter courses.

The District must identify and designate such repeatable courses in its catalog.

Under special circumstances, students may repeat courses in which a C or better grade was earned.

Students are allowed to repeat a course without petition when repetition is necessary to enable that student to meet a legally mandated training requirement as a condition of volunteer or continued paid employment. Students can repeat such courses any number of times.

Students may petition to repeat a course as a result of a significant change in industry or licensure standards such that repetition of the course is necessary for the student's employment or licensure. Students can repeat such courses any number of times.

Students may enroll in activity courses in physical education, visual arts, or performing arts. Such courses may not be repeated for more than four semesters or six quarters. This limit applies even if the student receives a substandard grade or "W" during one or more enrollment or if a student petitions for repetition ~~for repetition~~ due to extenuating circumstances.

Students with disabilities can repeat a special class for students with disabilities any number of times when an individualized determination verifies that such repetition is required as a disability-related accommodation for the student for one of the reasons specified in Title 5 Section 56029.

~~A student may repeat a cooperative work experience program any number of times as long as they do not exceed the limit on the number of units of cooperative work experience set forth in Title 5 Section 55253(a); however, the grade received by the student each time will be included in calculations of the student's grade point average. A student may repeat a work experience education course subject to Title 5 Section 55040.~~

Commented [SC1]: Should we add "See AP 4103 Work Experience"

The District shall develop and implement a mechanism to allow it to properly monitor course repetition.

STEP 2 – EVALUATOR REVIEW

 Recommended: Not Recommended:

Explanation:

Student is wanting to use courses HCS 214/216 from the University of Phoenix in the CSU Gen ed pattern to fulfill areas B2/B3. Based on the course description and information provided I recommend using the combined courses as a substitute in both areas. By combining the courses we can get the unit count for the CSU gen ed areas. See the syllabus for both courses on the pages down below.

STEP 3 - DIVISION CHAIR REVIEW

 Recommended: Not Recommended: Send to Faculty Member: If yes, who: _____

Explanation:

These courses have titles indicating they are science but that's where it seems to end. Area B for CSU Breadth states "Scientific Inquiry". The courses in this petition state they provide "fundamental baseline for coding and billing applications..." as a part of their medical records degree. There is no indication of any laboratory activity nor any inference that instruction is led by individuals with scientific backgrounds. I do not recommend that either course satisfy any portion of area B.

Expediente N°: 584816443

Indicación del estudio: tamizaje.

Estudio efectuado con equipo digital especial para toma de mamografías, de dosis baja y alta resolución. Se tomaron dos proyecciones de cada mama, una cráneo-caudal y la otra oblicua medio-lateral.

Composición del tejido mamario:

Patrón mamario con áreas dispersas de tejido fibroglandular (tipo b) de moderada densidad.

No hay imágenes que sugieran tumoraciones circunscritas, lesiones estrelladas, asimetrías ni distorsión de su arquitectura.

No observo microcalcificaciones irregulares, agrupadas ni sospechosas. Calcificaciones de aspecto típicamente benigno en ambas mamas.

Piel, pezones y axilas normales.

Hay ganglios axilares de aspecto benigno.

No se identifican hallazgos patológicos asociados: engrosamiento de la piel ni trabecular, retracción de la piel ni de pezones.

No dispongo de estudios previos para realizar comparación.

Impresión diagnóstica:

1. Calcificaciones de aspecto típicamente benigno en ambas mamas.
2. No hay hallazgos mamográficos que sugieran malignidad.

BIRADS 2. Hallazgos benignos.
