

Intercollegiate Sports

The Taft College Athletic Department is dedicated to helping our student athletes achieve success both academically and athletically. Taft College is a member of the Central Valley Conference and participates in the following intercollegiate sports:

- Men's Baseball
- Men's Golf
- Men's Soccer
- Women's Basketball
- Women's Golf
- Women's Soccer
- Women's Softball
- Women's Volleyball

The main goal of the athletic department is to develop the student athlete both on the court/field as well as in the classroom. Our sports programs teach athletes the value of discipline, loyalty, hard work, good health and good sportsmanship.

1. Child Devel Asst Teacher -Local
2. Management Customer Service - Local
3. Associate Teacher in ECEF
4. Microsoft Office Applications – Local
5. Teacher in ECEF

Spotlight

Since its launch as a grant-funded summer program in 2014, the Science, Technology, Engineering, and Mathematics (STEM) summer program has developed as a pipeline among local elementary to high school students for preparation toward high-wage careers. Faculty and staff work collaboratively to coordinate these summer camps for the purpose of igniting that spark of curiosity in young minds for STEM education at Taft College.

These summer camps epitomize Taft College's longstanding commitment to local students and the community. As such, Taft College faculty and staff deliver educationally-enriching activities – helping young students learn the wonders of botany, the intricacies of building solar cars and 3-D printers, and the satisfaction of seeing their efforts pay off in the solar car race while admiring their 3-D designs.

Beginning in 2019, the STEM camps underwent a name change, STEM-CiTE ("Stem-city") to represent the range of careers in STEM fields and Careers in Technical Education (CiTE). 2019 saw not only a change in the name of the camps but also an upsurge in students. While 191 students in total have completed the program since 2014, 83 of them participated this summer.

Taft College continues to innovate its summer camps by adding more opportunities for young STEM-CiTE participants each year. STEM-CiTE camps benefit from the support of local schools, community, industry partners, and the Taft College Foundation.

Fields of Study

- Admin of Justice
- Administrative Services
- Art
- Art History
- Biology
